Mission Statement

Mary, Mother of the Redeemer Catholic School's Mission is to recognize the uniqueness of each child and to provide a quality Catholic Education, enlivened by faith, hope, and love that is proud, progressive, and motivated to meet the needs of our 21st century students.

The Mary, Mother of the Redeemer School Handbook should be reviewed in its entirety each year. Please note, the Administration reserves the right to make changes and/or amendments as needed. Changes, if any, will be announced in the Weekly Update.

The following information is intended as a quick reference guide and does not take the place of a thorough review of the on-line [Student Handbook](#).

Allergies

All allergic conditions must be listed on the Emergency Record Card. Severe allergies, especially food ingestion or those requiring medication must also include an Allergy Action Plan and medication as needed. Please contact the Nurse's Office for more information.

Illness

The main reasons for keeping your child home from school are:

- If (s)he is too sick to be comfortable at school
- If (s)he might spread a contagious condition to others

Please keep your child at home if any of the following symptoms are present:

- **Appearance/Behavior**-unusually tired, lacking appetite, difficult to wake, confused; irritable
- **Covid 19**-home for 5 days then return to school only if high symptom free. Mask strongly suggested for 5 days upon return to school.
- **Eyes**-thick mucus or pus draining from the eye or pink eye.
- **Fever**-temperature of 100°F or higher. Remember that a child must be fever-free for 24 hours after the cessation of fever reducing medicine before returning to school.
- **Greenish Nose Discharge/Chronic Cough**-should be seen by a health care provider as these conditions may be contagious and require treatment.
- **Sore Throat**-especially with fever or swollen glands in the neck. If *strep* is diagnosed, the child may return to school after 24 hours on antibiotics.
- **Diarrhea**-3 or more watery stools in a 24-hour period, especially if the child looks/acts ill.
- **Vomiting**-2 or more times within a 24-hour period.
- **Rash**-body rash with fever. Heat rashes and allergic reactions are NOT contagious.
- **Lice, Scabies**-may not return until they have been treated and are free of lice and nits (eggs.)
- **Chicken Pox**-must stay at home or until all pox are scabbed over and dry.
- **Measles/German Measles/Rubella**-must stay home for 4 days after the onset of rash.
- **Mumps**- must stay home for 9 days from the onset of swelling.
- **Strep/Scarlet Fever**-24 hours after medication is started.
- **Whooping Cough**-7 days after medication is started.

If any of these symptoms are displayed at school, it will be necessary to pick up the student.

Medication

Medication should be given to the student before or after school whenever possible. If physician's directions require medicine to be administered to students in Kindergarten – Grade 8 during the school day, it will be given from the main office or the nurse's office. Authorization forms are required before medication will be given. These forms must be signed by the parent AND PHYSICIAN and are available on the website or at the school office. All medication must be in its original container. Medications may be brought in by the day or by the week. Students may not carry a full prescription bottle back and forth daily. Medication will be administered to Pre-School students on a case-by-case basis and only with proper documentation from the physician and parent.
